

2022

ANNUAL REPORT

FROM THE BOARD

Thank you for this opportunity to share the impact we were able to make on young people through the power of sport during 2022.

Due to the shared common interests of Altus Sport and our funding partners around Sport for Development, we were able to develop the physical and social culture of our young people. The strive was for sport and physical activity, leadership, fair play and respect, educational motivation as well as expanding the activities in a sustainable way and to offer improved programmes.

It was fantastic to see the return to normality after the strict Covid-19 restrictions. Successive lockdowns, school closures, educational inequalities, loss in physical activity levels and the general wellbeing of young people had suffered.

In 2022 we fully implemented our programmes to build-back healthier, happier and more resilient young people. A big thank you to all our partners helping us utilise sport in building brighter futures for our young people and giving them opportunities to develop and strive!

A special word of appreciation to our external evaluator, Prof Cora Burnett for her willingness to drive kilometers to field visits and focus groups. We acknowledge the many midnight hours put into the impact report! Thank you for the valuable insight and recommendations – Altus Sport can only benefit!

Last but not least, no programme, change, impact would have been possible without the great Management and Youth Sport Leader team. A big THANK YOU!

Gert Potgieter
Executive Director

Altus Sport utilised sport to unlock compassionate, positive energy in each person who crossed our path in 2022.

Altus Sport strived to support the UN Sustainable Development Goals

SDG 3: GOOD HEALTH & WELL-BEING

Put fun into physical activity and promote a healthy lifestyle

SDG 4: QUALITY EDUCATION

Support literacy on various levels. We believe knowledge is power and reading and writing a necessity.

SDG 5: GENDER EQUALITY

Provide knowledge on hygiene, reproductive health and rights, freedom from all forms of abuse and financial literacy

SDG 13: CLIMATE ACTION

Grow fresh veggies and provide to the community

SDG 16: PEACE, JUSTICE & STRONG INSTITUTIONS

Strive for peace, stability, human rights and effective governance on all levels. Empower unemployed youths to become role models and leaders in their community

The four main
outcomes set
by Altus Sport
were
successfully
reached.

1

Youth Sport Leaders will have an increased skill set that will improve their employability and ability to identify and participate in personal development opportunities. Specifically, YSL's will be able to illustrate the knowledge for, and ability to facilitate and lead sport coaching and life skill development training sessions and events; the ability to apply basic financial management skills such as budgeting; as well the ability to articulate acquired skills and experience in a way that will increase their employability.

- Workshops
- Mentorships
- Admin & M&E
- Coaching & facilitating
- Implementing events & sessions
- International experience
- Garden Market
- Career Day

Target Participants

Youth Sport Leaders, both male and female, aged 18 – 35 years.

SUPPORT SYSTEM

The YSL's were supported by a Management Team and the following tools:

- Youth Sport Leader Manual
- Policy Booklet
- Inhouse police clearance
- Training workshops
- Quarterly Activity Booklets
- Webinar training opportunities
- International mentoring support
- Psychological support – board member
- Accredited 1st Aid Course
- Consumer Education by SCB
- M&E system including a cell phone
- Providing safe spaces
- Partner input

YOUTH SPORT LEADERS INCREASED THEIR SKILL SET THROUGH:

1. Monthly workshops:

15 YSL workshops were held ranging from leadership, event management, employability skills and sports skills.

2. NIKE YES mentorship:

A 12-month mentorship programme whereby a 24-hour e-mentor assisted on personal development, decision making and healthy practices to impact the community.

3. IGNITE mentorship by SCB:

The FUTUREMAKERS IGNITE PROGRAMME consisted of weekly sessions with an e-mentor and focussed mainly on self-development, financial management and assisting in everyday life situations.

4. Consumer Education by SCB:

All YSL's attended a SEETA accredited 3-day course on consumer management hosted by SCB.

5. Management qualifications / certificates:

Miranda Dlamini & Kgomotso Mamabolo received their GOAL MASTER TRAINER certification through Women Win.

Zi Teffo, Miranda Dlamini & Kgomotso Mamabolo were found competent in Basic First Aid Level 1.

Zi Teffo, Miranda Dlamini & Kgomotso Mamabolo did an online course on MONITORING, EVALUATION & REPORTING through Sustainable Development Network.

Samantha Pennells-Ingle received certification as a Child Protection Officer through Laureus as well as M&E and Impact Evaluation certification in Sport For Development through GIZ and Laureus.

6. Basic Administration / IT / Apps

The YSL had the opportunity to handle their own administration by organizing their own schools and sessions and keeping record of their participations and equipment. Online surveys were conducted and YSL's were required to keep track of their participants / parents.

7. Insight into M&E

The YSL were introduced to base and endline questionnaires. Each YSL was required to keep track of various participants in order to write a most significant change story. This required interviewing a parent or teacher.

8. Basic coaching skills and implementing a session

Most YSL's have no background or experience of sport or coaching skills. Working with a group of children was not always easy for them.

9. Organising and running events

This was a big learning curve bringing out organizational and leadership skills.

10. International experience

Christina Kutumela had the opportunity to visit the USA and returned with gained knowledge and self-confidence.

- Twenty YSL from Altus Sport was part of the Jobs Fund project funded by Government, run by the SSCN.
- It entailed youths working 64 hours a month.
- Together with all our other YSL they participated in an Employability workshop.
- This project ran from May to October 2022.

FIRST AID LEVEL 1

36 Youth Sport leaders attended a two day Basic First Aid training to gear them with the right tools and scenarios if an incident happened during a session or in their own personal time. All youth sports leaders completed a POE and were found competent.

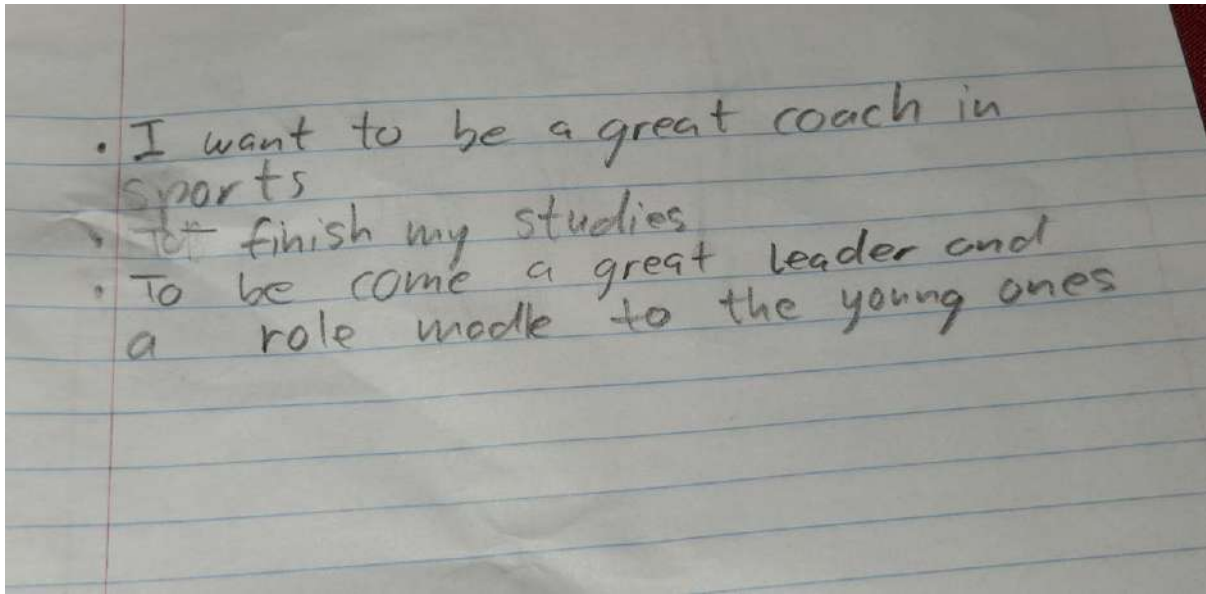

- **They learnt the following basics:**
-
- Elementary Anatomy and Physiology
- Choking and airway obstruction
- Cardiopulmonary Resuscitation theory
- Recovery Position
- Hemorrhage / Control of bleeding
- Management of shock and anaphylaxis
- Immobilisation and transport techniques, neck and spinal injuries
- Head, facial and spinal injuries
- Fractures, dislocations and sprains
- Wound management
- Burns

4 siblings and 2 nephews. I was born at Unithas hospital in 1991-11-18. When I turned 5 years old I was diagnosed with diabetes. When I was 12 I was diagnosed with hematinidosis. When I was 23 I was diagnosed with breast cancer. It was never easy and I never had a normal childhood. In and out of hospitals to a point I was told I won't make it to 30 years old, but because of my faith in God I am still here. Ntshunxeko is a very humble, giving and loving

REMARK FROM ZI TEFFO, PROGRAMME MANAGER TSHWANE SOUTH

- Ntshunxeko Shikwambani stood out for me as one of the most resilient youth leaders of the year.
- It was a difficult year for her due to her health issues, but she always made sure she attends her sessions and the communication between us never broke down. She was admitted to hospital twice this year and every time she got out, her question was always "my leader, when are you having an event for my kids?".
- She is bubbly, a person to rely on and she took every opportunity from Altus Sport that went her way with both hands.
- Her determination, selfless attitude, work-ethic, and resilience made her stand out from the rest. I am proud of her and the fact that nothing stands on her way to bettering the lives of others.

INTERNATIONAL EXPERIENCE

Basic financial management to become money savvy

Participants water, harvest and clean the market gardens daily. Once they are viable to harvest, they sell to their schools and communities. The veggies are anything from spinach, cabbage, beetroot and peppers.

From the 20 market gardens we had, 16 were profitable and made a combined profit of R8268.

The remainder four market gardens had a few obstacles to get through.

The tunnels on 2 gardens we burnt by run away fires. We were able to salvage them and the other two, well....the goats were clever and realized that they could open the netting and have a happy feast.

This was unfortunate because it took such a long time to get the veggies back on track.

CASLY-ANN APPEL

(LAUREUS)

“I have learned that it is okay not to be okay and to love others around you. To engage in self-care, to rise to the challenge, that also nobody goes through life without challenges and obstacles.”

I have learned to express myself!

I'm a very quiet person, I don't talk if someone doesn't talk to me. I engage with myself. For the first few months in my Life's a Ball group I never spoke. I only loved to be there because of the sport.

I avoid fights because it is not healthy for me and my body, it can bring you into lots of trouble. My coach spoke about knowing who you are as a person and knowing the difference between your rights and how to manage yourself in situations.

This was important to me, because firstly I'm a young girl that is still learning about life and who I am as a person. I must know what I can do and what I can't do. Coach spoke about controlling your feelings, to always have a plan, to apologize when I'm wrong, to stand up in what I believe in as a young girl.

Coach kept on asking us our feelings and ideas and because I felt comfortable in the group I spoke more and more. I must say that I really enjoy being part of Altus Sport, because it brings joy in my heart knowing there's this program that helps you express how you feel, teaches you about bullying, how to love and care for others.

Because I have gained confidence in myself by speaking more easily in my girl group, I have made wonderful sister's even outside my group.

RE MMOGO (TOGETHERNESS) & COMPASSION CONFERENCE

Altus Sport hosted a RE MMOGO & TOGETHERNESS Conference. Main topics included - Safeguarding, Olympism (positive values in everyday living), Gender and Inclusion. Target audience: Principals and educators from the schools we are working in, Youth Sport Leaders and our stakeholders.

Altus Sport and the Olympic Studies Centre, University of Johannesburg are striving to build a network of service providers which facilitates togetherness and positive values in our schools and communities. In partnership with the Standard Chartered Foundation, Futuremakers and Women Win, global leaders in girls' empowerment which leverages the power of play to help girls build strong moral values and leadership skills.

With the power of compassion and Olympic values the conference aims to bring togetherness in our environment - we are all in it together! We believe compassion allows us to realize our role in something much larger than ourselves. It allows us to forget our selfish desires and to strive to better the lives of all. We believe that a compassionate environment will be a peaceful and safe environment.

A compassionate environment is only possible when every man, woman and child treats others as they wish to be treated - with dignity, equity and respect.

THANK YOU TO OUR OTHER PARTNERS STRIVING TO EMPOWER AND KEEPING OUR KIDS SAFE!

If you were a lucky prize winner, please pay it forward to a child in your school or community that you know needs or deserves it!

Please forward us a short motivation on why you selected that child - include a picture.

STORIES

Reitumetse Mokhuthu

(FIFA)

MY STORY

BELONGING: the reason for the headline belonging is that I feel that most kids are in certain bad groups or gangs because they **WANT** to belong.

My Coach changed my life!

I always played far from home, and I never had a single day where my parents didn't shout at me! I thought they didn't like it when I played sport.

When I joined the Life's a Ball programme they first didn't approve of me joining. They thought I was lying to them. My coach came to my home and explained to my parents what the programme was about and that it would be at the school. My coach gave them a form to sign which showed them what day and time I will be playing. They then allowed me play.

It didn't take long before my mom noticed that I am always happy about everything at Altus Sport. If my parents ever think I am lying about going to my sessions, they call my coach to confirm. Only now do I realize the importance of being in the Life's a Ball programme because I feel that my parents love and trust me again and I have stopped being friends with children in street gangs, always fighting and coming home late. My father says this was a blessing because it's for my safety.

My life has changed for the better now because I have found myself a friend in my coach and we have become a team with the Life's a Ball group. I am able to talk to her about things that are bothering me and we can even discuss anything openly in our group. My coach also helps me with my homework which has a big impact because my teachers no longer shout at me for not doing my homework.

Thanks Coach I want to be like you!

SPEAK UP AND OUT!!!

LESEDI
TEPANYEGA
(WOMEN WIN)

My name is Lesedi Tepanyega and I am 12 years old. I live in Kekana, Hammanskraal and attend Ikteleng Primary School.

Before joining the program, I was raped by my brother. At that time, I did not have anyone to talk to and I did not know that I should report it because he is a family member. I had a lot of anger issues towards other kids who seemed happy, and I always blamed myself because I was told I was useless.

After joining Altus Sport my eyes opened. In the group we discussed topics I did not know about. I now know it was not my fault what happened to me. I quickly learnt that I have rights as a girl. I never knew that I could stand up for them.

The GOAL programme and coach Palesa helped me understand the importance of speaking out and standing up myself. In our community, if a family member does something like this to you – you may not report it. It must be handled within the family. I WAS ASHAMED!! My family didn't do anything because he was FAMILY!

For the first time I was able to talk to someone about what happened to me, and they did not judge me. My coach taught us about our community and where to go when something bad happens.

Through this program I was able to defend myself and now I can start healing. I opened a case against my brother, and he is in jail now. My family and I speak to a social worker every week so that we all can heal and understand that it was a crime that had to be dealt with by the government – not internally by family members.

NOW – I CAN SPEAK UP AND OUT – MY STORY HAS HELPED A LOT OF GIRLS IN OUR SCHOOL AND COMMUNITY THAT WENT THROUGH THE SAME SITUATION!! I AM A POWERFUL GIRL WHO WILL NOT GET USED FOR ANYTHING!! I CAN MAKE A DIFFERENCE BECAUSE ALTUS SPORT HELPED ME MAKE A DIFFERENCE WHEN I WAS AT MY WEAKEST!

KABELO
PETELE

FREE TO BE
WHO I AM
(UEFA)

From the Youth Sport Leader

Kabelo Petele is a 11-year-old boy who attends Thuthukani Tswelopele Primary School. He became involved in Altus Sport through his sister who attended Life's a Ball sessions. While waiting for her after school, he became interested seeing her play sport.

In grade 5 he joined the programme because he loves to play netball. He enjoys playing with girls more than boys. When he joined Altus Sport most of the boys teased him because he loved netball more than soccer and usually his friends are girls.

He told me that he sees himself different because he does not like to play rough like boys. He is a soft loving and caring person who is full of drama, loves hanging out with girls and gossiping with his friends Maditaba and Tshepiso. The kids at his school called him names and this has made an emotional mark on him.

Since he joined my sessions, I noticed that he participates more spontaneous. We have a policy of no discrimination and boys and girls play together whatever the sport or game. I focus on the value of respect, building self-confidence, and spend a lot of time talking about all forms of bullying.

Kabelo:

"Since I joined, I'm more ambitious and fuller of joy because I can be myself more than before. I still sometimes see myself as a boy, it's just I do girly stuff. At home I'm mostly surrounded by girls and at home I prefer to play with girls.

My life has changed since being part of Altus Sport, we are all equal and we play both female and male sports without anyone judging us for playing certain games. I enjoy the session where we learn about bullying because I was always the victim in class where boys used to bully me for my behaviour. Now I don't care about what people have to say about me and I'm happy the way I am.

Coach told me that I shouldn't be afraid of being myself around boys or my teammates. When I'm at sessions I feel free, and I feel I belong and not judged by anyone."

Participants will demonstrate leadership skills/qualities and increased self-confidence both at school, at home and at the sports program. Participants will also be able to articulate the Olympic values and will be able to apply positive values to both a sport and real-life context. Participants will furthermore be skilled in basic financial management and will demonstrate a 'money savvy' attitude.

4

- Leadership
- Olympism
- Money savvy

Target Participants

Participants, male and female, aged 11 – 17 years.

The three values of Olympism are excellence, respect and friendship.

- His mother is unemployed but somehow, she manages to put a smile to her children.
- Recently the school had an excursion unfortunately Nkululeko couldn't be part of it due to lack of money at home.
- Nkululeko is dedicated in his studies. He loves chess, morabaraba and dance. So, I had no choice but to choose him.
- Probably the gift will make him dance even mooore!! 😊
